EUROPEAN UNION

<b>Name</b>	RESPONSe – “Strategies to adapt to climate change in Adriatic regions”
<b>Duration</b>	30 months (01.01.2019 – 30.06.2021)
<b>Programme</b>	Interreg Italy – Croatia
<b>Priority</b>	Safety and Resilience
<b>Funding</b>	1.822.440,79 € FESR (total budget 2.144.048 €)

## Description

The project aims at empowering local policy-makers to enable climate-smart governance approaches and promote sustainable living in Adriatic marine and coastal areas. ADAPT will provide the tools to foster effective policy-making on climate adaptation at local level and support strategic decision-making on how best to address the effects of climate change on the coastal areas of the Adriatic basin. Building on the development of tailored climate services tackling vulnerabilities of the Adriatic region, ADAPT will promote the engagement of local policy-makers and help mainstreaming adaptation planning into policy frameworks. This approach will increase the adaptation capacity of the programme area and establish a common ground to lay the basis for an environment that furthers the protection of population wellbeing.

## Partners

1. INFORMEST (partner leader – Italia)
2. APE FVG (Italia)
3. ARPAV – Regional agency for environmental protection and prevention of Veneto (Italia)
4. UNIVPM – University Polytechnic of Marche (Italia)
5. Regione Puglia – Apulia Region (Italia)
6. EIHP – Energy Institute Hrvoje Požar (Croazia)
7. DHMZ – Meteorological and Hydrological Service (Croazia)
8. IOF – Institute of Oceanography and Fisheries (Croazia)
